

Applic. No.: 10/747,703
Amdt. Dated May 23, 2005
Reply to Office action of April 21, 2005

Remarks:

In deference to the election/restriction requirement on pages 2 and 3 of the above-identified Office Action, Applicants elect, with traverse, the species shown in Figs. 1-3 where the first predetermined angle has a value of substantially 0° or lies within a range from 0° to 20° and the second predetermined angle has a value of substantially 90° or lies within a range from 70° to 90° . Contrary to the Examiner's statement, claims 1-2, 7, and 11-43 are generic for all species and claims 3-4 and 8-10 read on the elected species. This election is believed to comply with the Examiner's requirement to elect any one species or one set of figures of the same species.

Applicants request consideration of the claims reading on the figures in other species upon the allowance of a generic claim.

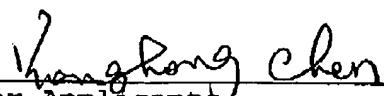

Applicants also reserve the right to file a divisional application regarding the other species at a later date.

In view of the foregoing, the early issuance of an Action on the merits of claims 1-4 and 7-43, which read on elected species, is solicited.
